To Whom it may Concern,

I am pleased to write this letter of recommendation for Lee Er Phua Sharp, who has been student teaching in my building. She has worked at Grant for several years and I had the pleasure of working with her as a parent as well. She holds high expectations for her 3 sons and at the same time is nurturing and supportive. Despite the challenges of balancing her family responsibilities, she has excelled in her college coursework, which she completed online.

Ms. Sharp's compassionate nature is evident in her interactions with students. She creates a warm and nurturing environment in the classroom, fostering a positive learning atmosphere. Her capability is demonstrated through well-planned lessons that cater to the diverse needs of her 1st grade students.

I have been impressed with Ms. Sharp's ability to accomplish so much in her short time at Grant School. She is an important part of our community and uplifts both children and adults whenever she interacts with them.

Sincerely,
Jennifer Jones
